Building Structures*

PRELIMINARY AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS
Washington, D.C. 20231

Dear Sir:

Please enter the following amendments prior to examination of this application.

In the Claims

Please cancel the present claims 1 - 39 in the international application and substitute therefor the following claims 40 - 66:

AI
40. A building structure comprising:
a support module; and
a plurality of enclosed room modules, each room module being independently attachable to and cantilevered from the support module.

41. A building structure according to Claim 40, wherein the support module supports one room module adjacent another, the room modules being horizontally spaced apart from one another.
